SUMMARY

Motivated student eager to apply classroom knowledge to real-world experiences, with strong ability to learn and adapt quickly. Effective communicator with a collaborative mindset, ready to bring fresh perspectives and a strong work ethic to any team.

EDUCATION

Bachelor of Technology in Computer Science And Engineering

CVR College of Engineering · Vastunagar, Hyderabad, Telangana · 2026 · 9.22 GPA

Board of Intermediate Education

Gurukrupa Junior College · Siddipet · 2022 · 98.7%

EXPERIENCE

SDE INTERN

nDMatrix Private Limited

December 2025 – Present, Hyderabad, Telangana

- Engineered a full-stack, cloud-deployed learning platform supporting 4 distinct user roles with isolated dashboards and permissions.
- Designed scalable backend APIs in **Node.js** handling course purchases, test evaluations, analytics generation, and live session workflows.
- Structured normalized **MySQL** database schemas improving query performance and data consistency.
- Implemented performance tracking and analytics module for student score visualization.
- Deployed and monitored application services on **Google Cloud Platform (GCP)** ensuring reliability and scalability.

Apprentice Engineer

DBS Tech India

June 2025 – December 2025, Hyderabad

- Completed structured apprenticeship under the DBS Tech India technology program.
- Assisted in software development, debugging, and application support activities.
- Collaborated with engineering teams using Git and Agile practices.
- Gained hands-on exposure to enterprise-level development workflows and industry best practices.
- Strengthened problem-solving and technical skills in a professional corporate environment.

PROJECT

MediConnect

Hospitalization · github.com/Sathvik1404/mediConnect

- Built a scalable hospital management platform using the MERN stack, enabling seamless scheduling, digital patient records, and multi-role user access for patients, doctors, and hospitals.
- Implemented role-based access control (RBAC) using JWT and middleware in Node.js/Express to ensure secure and personalized access for patients, doctors, and hospitals.
- Integrated Cloudinary for secure and scalable storage of medical reports, enabling fast upload/retrieval and optimized access via secure cloud URLs.
- Integrated Razorpay payment gateway with backend verification and dynamic post-payment booking, automating appointment confirmation.
- Deployed our on Project on Render.

Tutone

Coaching Solution · github.com/Sathvik1404/Tutone

- Built a full-stack course platform using React.js, Node.js, MongoDB, and JWT, enabling secure user authentication, role-based dashboards, and real-time course enrollment tracking.
- Integrated Razorpay payment gateway, automating enrollment post-payment with dynamic UI updates and backend verification for seamless transactions.
- Developed RESTful APIs with proper error handling and token-based access.
- Allowing smooth communication between frontend and backend with loading states and protected routes.

CERTIFICATIONS

Advanced Data Structures Through Java

Ebox · 2024

Introduction to Front End Development

SimpliLearn · 2024

JavaScript Essentials

SimpliLearn · 2024

INVOLVEMENT

Elected as the Marketing Lead at Cybernauts Club

CVR College Of Engineering

Attended MERN-Stack Workshop

CVR College Of Engineering

Participated in a 24-hour Hackathon

VNR College of Engineering

- Developed an Online Streaming Platform Where users can Connect together Online and Watch Movies, Shows, Calls, etc.
- Agora SDK is used for special video calling feature.

SKILLS

Languages : C, Java, Python, JavaScript, HTML/CSS

Frameworks : React.js, Node.js, Express.js

Developer Tools : Git, VS Code

Database : MongoDB, SQL
